

## WELCOME TO THE 2024-2025 PEOPLES GAS MIDDLE SCHOOL STEM CLUB

September 18, 2024

Hopefully the 2024-2025 school year has started out well for you and your students. We are geared up for the 75<sup>th</sup> Anniversary of the STEM Exhibition.

Here are the objectives for Peoples Gas Middle School STEM Club.

### Objectives for all STEM Clubs:

- Assist students (grades 6-8) in selecting and developing their ideas for STEM exhibition research projects.
- Participate in Regional STEM Virtual Exhibition. The 2024-25 LOI (Letter of Intent) must be on file by October 18, 2024) Here is the link to the [2025 Letter of Intent for the CPS Exhibition of Student STEM Research](#)
- Each club member produces a STEM research project and presents it in the school STEM Exhibition.
- Foster students' interest in research and exhibiting their work.
- Develop data collecting and analysis skills. (*There are some Vernier probes available to borrow. These tools can be used with Chromebooks*)
- Access the professional advice and feedback from CPSSSF, Inc alumni and possibly Peoples Gas professionals to help students develop their projects.
- Help students obtain and share equipment and supplies while determining that each project meets the safety requirements as outlined in the current *STEM Exhibition Handbook*. [2023-2024 Exhibition of Student STEM Research Information Update And Handbook Summary](#)

If you need any resources like

- Markers, Green & Purple teacher pens, Pencils, Tape, Index cards etc
- Specific laboratory resources that will enhance your program let me know

Please contact me at [escopper@cps.edu](mailto:escopper@cps.edu)

Thank you for ALL that you do for our students.

Liz
